

# Tempest Risers

Anodising (anodizing in American) is a complex process where the end result can vary greatly. Representing that colour is also a complex mix of camera white balance and screen correction. So exact colours can be difficult to translate over the internet. So, please keep this in mind when ordering.

We offer 4 finishes to our Tempest Risers; textured shotblasted finish, polished metal finish. These can then be a bright or matt anodised finish. You can therefore have, in your chosen colour from below, bright finish on a shotblasted, Matt on polished or a dead flat, deep shotblasted matt finish,

The colours on offer, with any of the above finishes are:-

Gunmetal  
Silver  
Grey  
Titanium  
Brown  
Copper  
Orange  
Winchester green  
Green  
Applegreen  
Lime green

Light blue  
Navy blue  
Turquoise  
Violet  
Red  
Gold

These stock risers are available for shipping.

Please contact [sales@borderbows.com](mailto:sales@borderbows.com)/[ann@borderbows.com](mailto:ann@borderbows.com)/[sid@borderbows.com](mailto:sid@borderbows.com) for further information on pricing and shipping etc.
